OPTIMISTIC FEELING IS RAMPANT IN NEW YORK

Weather News Good, Crop Prospects Brightening and Labor Troubles in Process of Settlement.

By Thomas C. Shotwell.

TEW YORK, April 25.-Optimism day. The weather news was good and the crop prospects were brightened in all parts of the country. Announcement was made that terms of settlement had been agreed upon between the anthracite operators and the miners that would give the men an advance of 10 per cent in wages and a four-year contract. The stock market celebrated with about a dozen new high records and these records were in such issues as left no doubt as to the stability of the banking interests behind them.

Can Closely Held.

In American Can there was no activity until the afternoon, when the stock suddenly moved up from 38 to 39½ on very heavy transactions. It is becoming apparent that practically all the Can stock has been locked up in pursuance of the agreement of insiders to hold for several years. Rubber issues also advanced, the common stock going three points higher. Beet sugar made a high record on preliminary estimates of profits for the year, which show 13½ per cent earned on the common stock. The company is paying only 5 per cent and these earnings assure a continuation of that dividend at least, if not something extra. It is understood to be the policy of the board to maintain the present dividend, as they believe the stock would sell better with

stability of the banking interests behind them.

Among the stocks making these records were New York Central, Lehigh Valley and Reading, which sold higher than for several years, beet sugar. American Can and United States Rubber, which established absolutely new high prices; Mexican Petroleum. People's Gas and Wabash bonds.

Perhaps the most excitement was caused by the advances in People's Gas and Can. The Gas stock opened at about the level of the previous day and showed no sign of activity until the decision was handed down in Chicago authorizing the company to charge \$5 cents for gas. The city had forced the price down to 75 cents. Another appeal will be taken, this time by the city, but this final decision cannot be had for two years and in the meantime the company can charge the additional price. The stock advanced more than five points and closed near the top.

Can Closely Held.

Copper Market Strong.

The copper metal market is so strong and earnings of Amalgamated are so large that certainly no insider is trying to get rid of his stock at present prices. The future of Union Pachic is so bright that the same might be said of the insiders of that company.

Canadian Pacific did not make any new high record, but was higher than the previous close. This was due to the announcement that the company would spend \$100,000,000 as rapidly as possible double tracking and reducing grades. President Taft's attack on Theodore Roosevelt cheered the street a bit. The

"WORN OUT" DISEASED MEN.

I want you men in whom are sown the seeds of early follies, later excesses or disease, you whose falling memory, lost vigor, wrecked nerves, lame back, disordered stomach, warn you disease is at work undermining your physical, mental and vital powers, to call at my offices and learn of my methods of curing the diseases of men after all others have falled entirely. I make no charge for my counsel, and if I accept your case, will guarantee you a perfect and permanent cure.

CERTAINTY OF CURE IS WHAT YOU WANT

Any man who is diseased and discouraged today has no one to blame but himself. There is now absolutely no excuse for a man to allow himself to gradually waste away in the clutches of a Private Disease. If you are a sufferer from a Disease which you should well know will in time make a total physical present condition to one of two things. Viz.: You either have failed through neglect to give yourself the attention which you well know your condition demands, or you have never placed yourself in the hands of a Specialist. Competent and Reliable Specialist. It requires more than ordinary ability to cure any one of the diseases of which I have made a life work and speciality.

I cure All Blood and Skin Diseases Without Surgery in Any Form, I cure All Complicated and Associated Diseases of Men.
